Proceedings of the Government of His Highness the Maharaja of Mysore.

R e a d :-

The District Fund Administration Reports and accounts for the year 1914-15 .

Order - No. 8501-15 & 31-15-36

Dated, Bangalore 19th January 1916.

The reports have been drawn up in the revised form prescribed in G.O.No. 8850-62/L.B.234-12-3 dated 12th May 1915. Almost all the reports were received from the Districts in time but the final accounts of the Comptroller which were due at the end of December 1915 were received only in the 2nd week of February 1916. The Comptroller should make better arrangements for the submission of the accounts punctually on the prescribed date.

A

is requested

3. Development of Local Self Government.

Considerable attention was paid during the year to the question of improving the organisation and finances of local bodies. Two Committees consisting of selected officers of Government and non-official gentlemen investigated the -

the scheme of Local Self Government in the State.... One of them presided over by M. Kantharaj Urs, Esq., C.S.I. Second Member of Council dealing with the constitution and functions of the Local Bodies and the other presided over by Dewan Bahadur C. Srinivasaiengar, Retired State Councillor dealing with their financial resources. Another unique feature of the year under review was the holding of a Local Boards and Municipal Conference at Mysore on the 28th, 29th, and 30th June and 1st July 1915. The District Boards and the Kolar Gold Fields Sanitary Board returned 34 delegates to this Conference. The Conference was wholly non-official in its constitution. It considered and, for the most part, ratified the recommendations of the committees above mentioned, besides discussing various other new questions of great importance. One important resolution adopted by the Conference was to the effect that, to give permanency to its work, to consider large questions of policy, to press the views of the Local Bodies for the consideration of the Government and to stimulate greater interest in civic affairs, an Association of Local Bodies should be created.. The recommendation of the Committees and of the Conference were considered by Government and a few broad lines on which reform will be affected were announced by the Dewan in para 79

79 of his Address to the Dasara Representative Assembly of 1915 with a view to elicit public opinion. The entire question is receiving the consideration of the Government.

3. Regulations, Rules &c.

The Kolar Gold Fields Sanitary Board continued to be governed by the Mysore Mines Regulation and the rules thereunder, while the other Local Bodies were governed by the Local Boards Regulation and the rules. The Local Boards Regulation was amended during the year by Regulation No II of 1915 whereby power was conferred on Local Boards to impose a tax on shops in unions. The rules under the Local Boards Regulation were revised in consequence of the changes in account -- procedure due to the introduction of the local audit. This opportunity was also utilised to make the following further changes :-

1. The delegation to the Deputy Commissioners of the power to appoint non-official members of Union Panchyats.

2. Permitting every Municipal Council in a Taluk to return a member to the Taluk Board and

3. The appointment of the Civil officer of the Bangalore District as Vice President of the District Board of Bangalore in the place of the District --

(10

District Treasury Officer.

The Bangalore District Board framed bye-laws for the regulation and licensing of tanneries and they have since been approved by Government.

4. Constitution and working of Local Boards

Besides the Kolar Gold Fields Sanitary Board there were as in the previous year eight District Boards and 77 Taluk Boards. The number of Union Panchayats rose from 251 to 255, 6 new Panchayats having been constituted and two existing ones disestablished in the Mysore -- District during the year. The average attendance of members at the meetings remained practically the same as in the previous year, the percentage to the total strength being seventy-six, fifty-two and sixty-seven at the meetings of the District Boards, the Taluk Boards and the Union Panchayats respectively. The average attendance of official members at the meetings of the Taluk Boards was not quite satisfactory and was particularly bad in the case of the Taluk Boards of Tumkur, Kunigal, Nanjangud, French Rocks, Alur, Kumsi, Narasimharajapura, Davangere, and Harihar.

Non-official members should be encouraged to take more interest in the work of the Boards. We hope that the attendance of official members will also improve.

5. Finance Committees.

In none of the Districts did these Committees meet the prescribed number of times to check the accounts

(11

accounts as required by rules 136 and 137 of the rules under the Local Boards Regulation. The results of the Committees work in the Bangalore and Mysore Districts were mostly unsatisfactory. It is surprising to note that in the Bangalore District ~~inspite of the observations of the Government in their previous reviews~~, the Committee is reported to have met only once and that only one official member attended this single meeting. A perusal of the notes of the examination of the District Fund Accounts by the Local Audit Staff of the Comptroller's office indicates that the examination made by the Finance Committees was probably of a very superficial character in the -- majority of cases. The importance of a thorough and detailed examination of the transactions and accounts of the District Boards every month by the Finance Committees in the interests of the individual members themselves cannot be too greatly emphasised in view of their liability - under Section 36 of the Local Boards Regulation for any loss, waste or misapplication of District Funds or property occasioned by their neglect. The Presidents of the District Boards are therefore requested to place this matter - prominently before the District Boards for their consideration and to see that more satisfactory measures are taken for the regular and prompt scrutiny of ac-

counts

accounts and transactions by the Finance Committees.

6. Audit of accounts.

The accounts for the year 1913-14 were audited by the Local Audit staff and did not disclose any grave irregularities of the Comptroller's office and copies of audit notes were supplied to each of the Local Bodies concerned. There was considerable delay in the disposal of these audit notes and objection statements and also in forwarding the monthly accounts to the Comptroller. Government hope that the instructions given in their order No. 3923-44/G.R. 11-14-11 dated 23rd October 1914 and the recent amendment of rule 141 of the Local Board rules will tend to minimise such delays in future.

Audit upto audit now related 1913-14 Now Stated 1914. 8/4. D

7. Financial condition.

The income and expenditure during the year contrast with those of the previous year as shown in the following statement :-

Items.	1914-15.	1913-14.
I. Receipts.		
1. Allotment from local cess.	560678	549,059
2. Railway Cess.	47,661	-
3. House tax and Mohataffa.	113,337	124,060
4. Tolls.	45,553	41,925
5. Ferries.	4,877	5,545
6. Markets.	53,226	49,584
7. Accommodation for travellers.	4,133	3,818
8. Fines under Village Sanitation Rules.	547	375
9. Interest on investments.	10,301	10, 301
10. Contributions.	84,193	58, 050
11. Loans for railway ponstruction.	336, 423	-
12. Drinking water wells Fund.	91, 568	-
13. Deposits.	39, 365	36, 395
14. Other items.	79, 334	83, 817
Total	13,59,996	950,829.
II. Expenditure.		
1. Public Works executed by P.W.D.	455,865	394,509
2. Do. by Civil Department.	137,492	113,689
3. Administration and collection.	57,852	56,433
4. Conservancy and sanitation.	111,557	105,185
5. Medical Relief.	91,593	84,474
6. Accommodation for travellers.	26,534	29,610
7. Railway construction.	299,579	308,028
8. Interest on debt	14,105	14,869
9. Drinking Water Wells fund.	8,126	-
10. Deposits.	16,337	25,629
11. Other items.	41,641	44,433
Total	12,60,680	11,76,837

The increase under receipts was -- chiefly due to

(1) the loan raised for the construction of a Railway in the Shimoga District

(2) The contributions for the ~~ex~~ construction of drinking water wells and the special repairs of roads within a radius of 15 and 10 miles round the Bangalore and Mysore Cities respectively, and

(3) the levy from 1st July 1914 of a railway cess at 6 pies in the rupee on items contributing to the ordinary local cess in the Kolar District.

There was a substantial increase in the amount of local cess collected in the Mysore District while the income from the house tax decreased to some extent in the Chitaldrug, Bangalore, Mysore and Shimoga Districts. The realisations from market fees in the Hassan District were slightly better on account of the ~~new~~ levy of fees only at 12 weekly Santes during the year. The apparent increase under expenditure was due to the special repairs carried out to ~~of~~ roads round the Bangalore and Mysore Cities ~~for~~ from ~~which special~~ grants ~~were sanctioned~~ from the State Funds and the Local Fund General ~~in equal proportions~~. The large excess of expenditure over the income in the Kolar District was due to overdrawals on account of the construction of the railway from Kolar to Chickballapur.

8. Defects in Accounts

The collections made by the Kolar

Kolar District Board in connection with the 2nd debenture loan do not appear in the accounts and no interest has been charged on the minus balance outstanding against the Board. Adjustments in respect of the contributions due from the Local Fund General and the State Funds on account of the outlay incurred on the special repairs of roads round Bangalore and Mysore Cities have not been effected in full in the accounts and the adjustment of credits on this score has not been made after a correct calculation of the amounts due from each of the Funds.

9. Local Fund General.

The receipts and expenditure under Local Fund General amounted to Rs. 2,22,471/- and Rs.1,95,239/- against Rs. 2,38,531 and Rs.1,70,655 respectively in the previous years. The principal source of income was as usual the contribution of the 67 per cent of the local cess on Abkari and miscellaneous items of revenue. The major portion of the expenditure was on public works and contribution to Dasara Exhibition charges and Industrials schools charges. The Local Fund General had a balance of Rs.3,52,003/- at the end of the year.

10. Working of Union Panchayats.

10. The number of Union Panchayats that met the prescribed number of times decreased from 105 to 78 and

14 panchayats did not hold even a single meeting during the year. There was, however, appreciable improvements in the utilization of the Union Funds during the year, the percentage of income spent within union limits being 69 against 51 in the previous year. The measures necessary for infusing greater life into Union Administration are under consideration in connection with the ~~general~~ reforms.

L Lakshmi Sharma

P.T.O.

14. Demand Collection and Balance.

As the local cess is collected by the Revenue Department along with the Land Revenue and credited to the District Funds, the main item requiring the attention of the collection staff employed by the Local Boards is the house tax in - Unions, which falls due in two equal half yearly instalments in July and January every year. Out of the current demand of Rs.1,18,095/- on this account about 33 per cent was left uncollected while out of the arrears that exsisted on the 1st July 1914 only about 28 per cent was collected during the year. The arrears were heavy in all the Districts except Tumkur. The arrears in the Hassan District under Jodis and Ferries and in the Shimoga District under Ferries were also heavy. ~~It is well known that~~ the accumulation of arrears leads to the ultimate writing off of large amounts which ~~would~~ could have been recovered, if prompt steps ~~were~~ had been taken for their collection and ~~that~~ the presence of large arrears on the books affords wide scope for misappropriation by the collecting agency and also leads to irregularities of other kinds ~~also~~. The Presidents and Chairmen should therefore deal promptly with all cases of arrears, which at present encumber the accounts, by taking special measures if necessary with the approval of their Boards.

12 Public Works.

The outlay incurred from the Distric Funds in the State Public Works Departmen was mainly on the repairs of the District Fund Roads while that in the Civil Department was as usual for the provision of water supply facilities, the repair of ~~roads~~ roads of minor importance and sanitary works in Unions. One fourth of the total expenditure on works in the Civil Department was incurred within Union limits. Th total leggth of District Fund Roads repaired by the Public Works Department was 3,523 miles of which 1605 were metalled ones. The Mysore - Talkad - Sivasamudra road~~s~~ was retransferred to the Pubkic Works Department for upkeep during the year. ~~Six~~ Two hundred and seventeen new wells were sunk during the year at a cost of Rs. 31,632/- and 131 old ones repaired or improved at an aggregate cost of Rs. 11,062/-. In 85 villages drains were constructed and existing ones repaired at a total cost of Rs.14,164/-.

13 Lapses under Public Works,, executed by the Civil Department.

Fifty two per cent of the allotment for Public Works to be executed by the Civil Department lapsed during the year. ~~as shown in the following statement :-~~

(19

District.	Allotment	Expenditure.	Lapse.	Percentage of lapse to allotment.
Bangalore.	25,662	16,856	8,806	34
K o l a r .	16,039	13,796	2,243	13
Kolar Gold Fields.	36,559	20,196	16,363	45
Tumkur.	18,915	9,123	9,792	52
Mysore.	60,930	31,090	29,840	49
Hassan	41,932	11,382	30,550	73
Shimoga.	33,463	11,665	21,798	65
K a d u r .	8,056	4,052	4,004	50
Chitaldroog.	31,182	12,633	18,549	59
T O T A L .	272,738	1,30,793	1,41,945	52

B.K.M.

3

(20

The lapse was the least in Kolar (13 %) and the highest in Hassan (73 %). Lax supervision by Amildars, late submission of bills for work done, meeting hard and rocky soil while sinking wells and the consequent necessity to revise the estimates ~~are~~ to abandon works, paucity of ~~the~~ competent contractors and scarcity of labours and inadequacy of sanctioned rate are the principal reasons assigned for the occurrence of these lapses. Government note that ~~practically~~ almost all these are remediable or capable of speedy solution and hope that it will be found possible to show better results in future and that non-official members will take greater interest in assisting the executive in this matter. The instructions issued in ~~Government~~ their Order No. 9231-52/L.B.348-14 dated 22nd May 1915 will, ~~it is hoped,~~ also tend to minimise lapses and to ensure better execution of works

and Govt hope that the non-official members & the Offices will exert themselves to bring about better results in future years. Govt trust also that

E

P.T.O

14. Rural Water Supply.

With a view to provide facilities for drinking water in every village in the State a comprehensive programme has been sanctioned and Government have promised a special grant of Rs.1 lakh per annum for three years commencing from 1914-15. for this purpose. An additional grant of half a lakh of rupees has also been made available from the Village Improvement grant and the District Boards have been requested to contribute a similar amount. All these contributions together with the grants, if any, from the villages concerned have been constituted into a separate fund under the control of the Deputy Commissioner known as the Drinking Water wells Fund. Well works are ordinarily sanctioned only if the villagers concerned contribute one half of the cost in the shape of labour or money; but the Deputy Commissioners have been allowed to waive the contribution in specially hard cases. As this scheme was sanctioned rather late in the year and the necessary preliminary arrangements took time, there was not appreciable progress and only Rs.8,136/- were spent during the year

^ the progress

I hope that will be shown in the Comm year

5/4

P.T.O.

15. Vital Statistics.

The number of ~~deaths~~ births and deaths registered during the year was 98,522 and 82,308 against 99,768 and 90,866 respectively in the previous year. Cholera and Small pox were less prevalent than in the previous year. ~~and There was an appreciable increase~~ marked decrease in the mortality registered in the Tumkur and Chitaldrug Districts,

Dts	Deaths registered in 1913-14	1914-15	Decrease
Tumkur	13805	10794	3011
Chitaldrug	11,426	7579	3847

16. Medical Relief.

The District Funds contributed towards the maintenance of the maternity hospitals at ~~the~~ Mysore and Kolar Gold Fields, 117 Local Fund Dispensaries, 32 Ayurvedic and Unani dispensaries and the employment of 100 midwives during the year. The Female Dispensary at Champion Reefs was closed on the 7th October 1914 ~~when~~ on the opening of the New Maternity Hospital ~~was opened~~ but it was re-opened on the 4th March 1915 on the Sanitary Board agreeing to meet the charges thereof. New Local Fund Dispensaries were established at Bidare in the Kadur District and Hunchadakatte in the Shimoga District. A Vaidyashala was newly established at Hosakere in the Gubbi Taluk. The Local Fund Dispensary at Chelur and the Vaidyashalas at Augumbi and Rayalpad were transfered to Pathapalya, Chinikatte and Manchaneelkote respectively. The Redfern Memorial Hospital at Hassan continued to receive a grant of Rs.200/- a year from the Hassan District Funds.

17 Vaccination.

There was a general decrease in the number of vaccinations performed in all the Districts except Mysore. ~~Be~~ and the Kolar Gold Fields. Belated supply of vaccine lymph in February and March 1915, the absence of -- vaccinators on leave in the Tumkur District, the failure to fill up vacancies in the Hassan District till very late in the year and ~~want of training~~ temporary vaccinators to gain the confidence of the villagers in the Bangalore District are some of the reasons adduced for the decrease in the number of vaccinations performed. The Sanitary Commissioner's attention is invited ~~to these figures~~ and ~~he is requested to issue~~ the necessary instruction ~~for the avoidance of such regrettable causes in future~~. in the matter

18. Conservancy and Sanitation.

A sum of Rs. 111,557 was spent under this head, of which Rs. 97,635 were on establishments, Rs. 947 were spent on Sanitation during Jatras and Rs. 6890 on the prevention of epidemics. 74 sanitar and Assistant Sanitary Inspectors were employed for the supervision of sanitation in rural parts and separate places were set apart for storing manure in 537 villages. In 40 villages, besides the Unions, separate establishments were maintained at a cost of Rs. 2794/- to cleanse

the streets. The Village Improvement Committees and Malnad Improvement Committees have been doing a good deal of work in improving the sanitary condition of the villages by way of clearance of lantana etc., within their spheres of activity. To facilitate the operations of the Malnad Improvement Committees, the village sanitation rules have been ordered to be introduced into all the villages coming within their operation, irrespective of the number of houses therein; and to safe-gaurd the health of populous towns and important railway stations a similar relaxation of rules was permitted in the cases of villages in close proximity to such towns and stations. (Vide G.O.Nos. 4091-6/Mdl. 34-13-134 dated 20th November 1914 and 3838-37/Ml. 384-13-3 dated 12th November 1914.)

19 Prosecutions under Sanitation laws.

On the Kolar Gold Fields 78 persons were convicted for breach of sanitary rules while in the rural parts under the control of the District Boards out of 616 persons prosecuted for the breach of rules under the Village Sanitation Regulation 340 were convicted and fines amounting to Rs. 547 recovered and credited to the District Funds. The number of applications for licenses to build houses which were pending at the end of the year was very heavy in the Taluks of Kolar, Doddaballapur, Sidlaghat, Mulbagal, Arkalgud and Arsikere. Prompt

Prompt action should be taken to dispose of these cases.

20. Accommodation for travellers.

136 third class travellers' bungallows and 235 Musafirkhanas and other buildings were maintained at a cost Rs. 26,534 from the District Funds during the year. At Kondajji in the Hassan District a rest house was constructed by Mr. Appanna Iyengar at a cost of Rs.2000/- and placed at the disposal of the District Board for the use of the travelling public. The travellers' bungalow at Muthadi was retransferred to the charge of the Forest Department and the Musafarkhana at Lakkavalli was placed at the disposal of the Malnad Improvement Committee for locating a dispensary. The Building known as the Revenue Lodge at Marikanve was converted into a Musafirkhana and handed over to the Chitaldrug Board for maintenance. In connection with the Improvement of Hill stations in the State the Mysore District Board agreed to contribute to Government a moiety of the cost of construction of a Musafirkhana on the Chamundi hills.

21. Cattle shows and Exhibitions.

In addition to the usual cattle shows held at the several places under the auspices of the District Boards, five new shows organised purely by private enterprise were held at the marginally noted

1. Bowringpet.
2. Chickarsinakere. (Malavalli Taluk)
3. Kotebetta. (Nagamangala Taluk)
4. Bhimanahalli. (Heggadadevankote Tk)
5. Karighatta. (Seringapatam Taluk)

noted places. At Hoskoppa in the Kadur District a non-official member organised an exhibition of Malnad products and at Bowringpet an Industrial and Agricultural Exhibition was held in connection with the show above referred to.

22. Tolls

The toll gate at Siddapur on the Somwarpet-Konanur Road was abolished from 1st July 1914 and new toll gates were established on the Hangal-Rayadurga Road and the Babudan Hill road. The total number of local fund toll gates at the end of the year was 22 and the revenue therefrom was Rs. 45,553 or 5 per cent of the total receipts of the District Boards under Revenue Heads excluding extra-ordinary items.

P.T.O.

(7)

23. Cattle pounds.

A statement showing the number of cattle pounds under the management of the several Boards, their income etc is given below:-

I should like the statement supplied marked Y 5/d

Statements showing the details regarding Cattle pound income etc

Name of District	Total Income from fines	No of pounds	Average income for each pound	No of pounds in each of which the income from fines is less than Rs 20.	No of pounds not worked	No of pounds whose income is not reported	Remarks
Bangalore	3124	70	44·6	31	2	3	The lowest income from
Kolar	3387	247	13·7	172	10	4	fines is to be noted as Rs 0-4-0
~~Kolar~~ Gold fields	1083	10	108·3	4		—	in the case of the pounds at
Tumkur	3524	123	28·6	58	2	—	1 Motagamahalli Magadi Taluk
Mysore	1943	121	16·5	75	7	1	2. Nayanahalli Chickballapur Taluk
Hassan	3882	89	43·6	25	2	3	3. Issur Nikarpur Taluk

Kadur	2797	74	37·8	17	3	6	
Chitaldrug	5421	157	34·5	63	2	—	The highest income is Rs 658 from the pound at Basapur, Bangalore Taluk (not reliable) The next in rank of income is the one at Robertsonpet — Rs 536
Totals	27374	971	28·1	486	31	18	

27
28

2.3 Cattle Pounds.

It ~~will be~~ seen ~~therefrom~~ that in the case of 486 out of 971 ie., one half the number of pounds, the income from fines was less than Rs.20/- for the entire year and that in 31 pounds no animals were impounded during the year. The highest income from fines is reported from the pound at Basapur, Bangalore Taluk (Rs.658/-) and the next from the one at Robertsonpet (Rs.536/-). In the four marginally noted cattle pounds, an income of only 4 annas is reported.

Motaganahalli, Magadi Taluk.
Nayanahally, Chickballapur Taluk.
Issur, Shikarpur Taluk.
Tatti Sorab Taluk.

The number of cattle pounds in each District also varies largely, ranging - from 70 in the Bangalore District to 247 in the Kolar District. 172 of the pounds in the last named District had an income less than Rs.20/- and 10 did not work.

There is thus considerable reason to believe that pounds have in the past been opened without sufficient consideration as to their necessity.

As the establishment or continuance of pounds, except in localities where there is real need for them in the -- interests of the raiyats, is likely to cause hardship and afford scope for peculation by petty subordinates, - Government desire that all the Local Boards should scrutinise the lists of pounds within their jurisdiction, and submit to Government within 6 months from the date of this review, a list of pounds that may be closed. In this

24 Railways.

During the year, the Government undertook to become a joint and equal partner with the Kolar District Board in the Railway line from Bowringpet to Chickballapur. To meet the cost of the extension of the line from Kolar to Chickballapur the District Board were authorised to raise a further debenture loan of Rs.4 lakhs. But the money market being unfavourable the Board succeeded in raising only a sum of Rs.51,795 on account of this loan and they have found themselves unable to sell, at a reasonable rate of discount, the Government of India securities in which the original loan is invested. Government have, in view of the necessity for the very early completion of this railway, agreed to make temporary advances and allow over-drawals for meeting the District Board share of the cost of construction of the line, the District Board being required to pay -- interest at 4 per cent on the temporary advances and on the minus balances outstanding in their accounts. To open up the Malnad portion of the Shimoga District by the construction of a railway line, the Shimoga District Board was taken to raise a loan of Rs.10 lakhs under the usual government guarantee. Shares to the extent of Rs.5,88,000/- were subscribed for and Rs.236,423/- actually collected before the end of the year.

26

(32

25. General.

The thanks of Government are due to the several members of the local bodies who have co-operated in successfully administering the District Funds during the year. Government have that the members will be prepared to show more -- initative and assume greater responsibilities in future.

24/4/16

4/3/16

No. 8501-15—L. B. 31-15-36, DATED 19TH MAY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

The District Fund Administration Reports and Accounts for the year 1914-15.

Order No. 8501-15—L. B. 31-15-36, dated 19th May 1916.

The reports have been drawn up in the revised form prescribed in Government Order No. 8850-62—L. B. 234-12-2, dated 12th May 1915. Almost all the reports were received from the districts in time but the final accounts of the Comptroller which were due at the end of December 1915 were received only in the second week of February 1916. The Comptroller is requested to make better arrangements for the submission of the accounts punctually on the prescribed date.

2. *Development of Local Self-Government.*—Considerable attention was paid during the year to the question of improving the organisation and finances of local bodies. Two Committees consisting of selected officers of Government and non-official gentlemen investigated the scheme of Local Self-Government in the State. One of them presided over by Mr. M. Kantharaj Urs, C. S. I., Second Member of Council, dealt with the constitution and functions of the local bodies and the other presided over by Dewan Bahadur C. Srinivasaiengar, retired State Councillor, dealt with their financial resources. Another unique feature of the year under review was the holding of a Local Boards and Municipal Conference at Mysore on the 28th, 29th, and 30th June and 1st July 1915. The District Boards and the Kolar Gold Fields Sanitary Board returned twenty-four delegates to this Conference. The Conference was wholly non-official in its constitution. It considered and for the most part ratified the recommendations of the above mentioned Committees besides discussing various other new questions of great importance. The recommendations of the Committees and of the Conference were considered by Government and a few broad lines on which reform will be effected were announced by the Dewan in para 79 of his Address to the Dasara Representative Assembly of 1915 with a view to elicit public opinion. The entire question is receiving the consideration of the Government.

3. *Regulation, Rules, etc.*—The Kolar Gold Fields Sanitary Board continued to be governed by the Mysore Mines Regulation and the Rules thereunder, while the other local bodies were governed by the Local Boards Regulation and Rules. The Local Boards Regulation was amended during the year by Regulation No. III of 1915 whereby power was conferred on Local Boards to impose a tax on shops in Unions. The rules under the Local Boards Regulation were revised in consequence of the changes in account procedure due to the introduction of the local audit. This opportunity was also utilised to make the following further changes:—

(1) The delegation to the Deputy Commissioners of the power to appoint non-official members of Union Panchayets.

(2) Permitting every Municipal Council in a taluk to return a member to the Taluk Board, and

(3) The appointment of the Civil officer of the Bangalore District as Vice-President of the District Board of Bangalore in the place of the District Treasury Officer.

The Bangalore District Board framed bye-laws for the regulation and licensing of tanneries and they have since been approved by Government.

4. *Constitution and working of Local Boards.*—Besides the Kolar Gold Fields Sanitary Board there were as in the previous year 8 District Boards and 77 Taluk Boards. The number of Union Panchayets rose from 251 to 255, six new

Panchayets having been constituted and two existing ones disestablished in the Mysore District during the year. The average attendance of members at the meetings remained practically the same as in the previous year, the percentage to the total strength being seventy-six, fifty-two and sixty-seven at the meetings of the District Boards, the Taluk Boards and the Union Panchayets respectively. The average attendance of official members at the meetings of the Taluk Boards was not quite satisfactory and was particularly bad in the case of the Taluk Boards of Tumkur, Kunigal, Nanjangud, French Rocks, Alur, Kumsi, Narasimharajapura, Davangere and Harihar. The Co-operation of officials in the work of Local Boards is highly necessary. The Government hope that the attendance of officials will show improvement in future.

5. *Finance Committees.*—In none of the districts did these Committees meet the prescribed number of times to check the accounts as required by Rules 136 and 137 of the Rules under the Local Boards Regulation. The results of the Committee's work in the Bangalore and Mysore Districts were mostly unsatisfactory. It is surprising to note that in the Bangalore District the Committee is reported to have met only once and that only one official member attended this single meeting. A perusal of the notes of the examination of the District Fund Accounts by the Local Audit Staff of the Comptroller's office indicates that the examination made by the Finance Committees was probably of a very superficial character in the majority of cases. The importance of a thorough and detailed examination of the transactions and accounts of the District Boards every month by the Finance Committees in the interests of the individual members themselves cannot be too greatly emphasised in view of their liability under Section 36 of the Local Boards Regulation for any loss, waste or misapplication of District Funds or property occasioned by their neglect. The Presidents of the District Boards are therefore requested to place this matter preminently before the District Boards for their consideration and to see that more satisfactory measures are taken for the regular and prompt scrutiny of accounts and transactions by the Finance Committees.

6. *Audit of Accounts.*—The accounts for the year 1913-14 were audited by the Local Audit Staff of the Comptroller's office and did not disclose any grave irregularities. Copies of audit notes were supplied to each of the local bodies concerned. There was considerable delay in the disposal of these audit notes and objection statements and also in forwarding the monthly accounts to the Comptroller. Government hope that the instructions given in their Order No. 3923-44—G. R. 11-14-11, dated 23rd October 1914, and the recent amendment of Rule 141 of the Local Boards Rules will tend to minimise such delays in future.

7. *Financial Condition.*—The income and expenditure during the year contrast with those of the previous year as shown in the following statement:—

Items	1914-15	1913-14
I. Receipts—	Rs.	Rs.
1. Allotment from local cess	5,60,678	5,49,059
2. Railway cess	47,661	.....
3. House tax and mohatarfa	1,12,337	1,24,060
4. Tolls	45,553	41,925
5. Ferries	4,877	5,545
6. Markets	53,226	49,584
7. Accommodation for travellers	4,133	2,818
8. Fines under Village Sanitation Rules	547	375
9. Interest on investments	10,201	10,201
10. Contributions	84,193	58,050
11. Loans for Railway construction	2,36,423	.....
12. Drinking Water Wells Fund...	91,568	.....
13. Deposits	29,265	26,395
14. Other items	79,334	82,817
Total ...	13,59,996	9,50,829

32991

FA32005

No. 8501-15—L. B. 31-15-36, DATED 19TH MAY 1916.

Items	1914-15	1913-14
II. Expenditure—	Rs	Rs.
1. Public works executed by Public Works Department...	4,55,861	3,94,509
2. Do by Civil Department ...	1,37,492	1,13,689
3. Administration and collection	57,852	56,422
4. Conservancy and sanitation	1,11,557	1,05,185
5. Medical relief	91,592	84,474
6. Accommodation for travellers	26,534	29,610
7. Railway construction	2,99,579	3,08,028
8. Interest on debt	14,105	14,869
9. Drinking Water Wells Fund	8,126	.....
10. Deposits	16,337	25,629
11. Other items	11,641	44,422
Total	12,60,680	11,76,837

The increase under receipts was chiefly due to:

(1) The loan raised for the construction of a Railway in the Shimoga District.

(2) The contributions for the construction of drinking water wells and the special repairs of roads within a radius of 15 and 10 miles round the Bangalore and Mysore Cities, respectively, and

(3) The levy from 1st July 1914, of a railway cess at 6 pies in the rupee on items contributing to the ordinary local cess, in the Kolar District.

There was a substantial increase in the amount of local cess collected in the Mysore District, while the income from the house tax decreased to some extent in the Chitaldrug, Bangalore, Mysore and Shimoga Districts. The realisations from market fees in the Hassan District were slightly better on account of the levy of fees newly at 12 weekly santes during the year. The apparent increase under expenditure was due to the special repairs carried out to roads round the Bangalore and Mysore Cities, from grants from the State Funds and the Local Funds General. The large excess of expenditure over the income in the Kolar District was due to overdrawals on account of the construction of the Railway from Kolar to Chikballapur.

8. *Defects in Accounts.*—The collections made by the Kolar District Board in connection with the 2nd debenture loan do not appear in the accounts and no interest has been charged on the minus balance outstanding against the Board. Adjustments in respect of the contributions due from the Local Funds General and the State Funds on account of the outlay incurred on the special repairs of roads round Bangalore and Mysore Cities have not been effected in full in the accounts and the adjustment of credits on this score has not been made after a correct calculation of the amounts due from each of the Funds.

9. *Local Fund General.*—The receipts and expenditure under Local Funds General amounted to Rs. 2,22,471 and Rs. 1,95,239 against Rs. 2,38,531 and Rs. 1,70,655, respectively, in the previous year. The principal source of income was as usual the contribution of the 67 per cent of the local cess on Abkari and miscellaneous items of revenue. The major portion of the expenditure was on public works and contribution to Dasara Exhibition charges and Industrial schools charges. The Local Fund General had a balance of Rs. 3,52,002 at the end of the year.

10. *Working of Union Panchayets.*—The number of Union Panchayets that met the prescribed number of times decreased from 105 to 78 and 14 Panchayats did not hold even a single meeting during the year. There was however appreciable improvement in the utilization of the Union Funds during the year, the percentage of income spent within Union limits being 69 against 51 in the previous year. The measures necessary for infusing greater life into Union Administration are under consideration in connection with the Local Self-Government Scheme.

No. 8501-15—L. B. 31-15-36, dated 19th May 1916.

11. *Demand, Collection and Balance.*—As the local cess is collected by the Revenue Department along with the Land Revenue and credited to the District Funds, the main item requiring the attention of the collection staff employed by the Local Boards is the house tax in Unions, which falls due in two equal half-yearly instalments in July and January every year. Out of the current demand of Rs. 1,18,795 on this account about 33 per cent was left uncollected, while out of the arrears that exsisted on the 1st July 1914 only about 28 per cent was collected during the year. The arrears were heavy in all the districts except Tumkur. The arrears in the Hassan District under tolls and ferries and in the Shimoga District under ferries were also heavy. The accumulation of arrears leads to the ultimate writing off of large amounts which could have been recovered if prompt steps had been taken for their collection and the presence of large arrears on the books affords wide scope for misappropriation by the collecting agency and also leads to irregularities of other kinds. The Presidents and Chairmen should therefore deal promptly with all cases of arrears, which at present encumber the accounts, by taking special measures, if necessary, with the approval of their Boards.

12. *Public Works.*—The outlay incurred from the District Funds in the State Public Works Department was mainly on the repairs of the District Fund roads, while that in the Civil Department was as usual for the provision of the water-supply facilities, the repair of roads of minor importance and sanitary works in Unions. One-fourth of the total expenditure on works in the Civil Department was incurred within Union limits. The total length of District Fund roads repaired by the Public Works Department was 3,522 miles of which 1,605 were metalled ones. The Mysore-Talkad-Sivasamudram road was retransferred to the Public Works Department for upkeep during the year. Two hundred and seventeen new wells were sunk during the year at a cost of Rs. 31,632 and 131 old ones repaired or improved at an aggregate cost of Rs. 11,062. In eighty-five villages drains were constructed and existing ones repaired at a total cost of Rs. 14,164.

13. *Lapses under Public Works executed by the Civil Department.*—Fifty-two per cent of the allotment for public works to be executed by the Civil Department lapsed during the year. The lapse was the least in Kolar (13 per cent) and the highest in Hassan (73 per cent). Lax supervision by Amildars, late submission of bills for work done, meeting hard and rocky soil while sinking wells and the consequent necessity to revise the estimates or to abondon works, paucity of competent contractors and scarcity of labour and inadequacy of sanctioned rates are the principal reasons assigned for the occurrence of these lapses. Government note that almost all these are remediable or capable of speedy solution and hope that the non-official members and the officers will exert themselves to bring about better results in future years. Government trust also that the instructions issued in their Order No. 9231-52—L. B. 249-14-1, dated 22nd May 1915, will tend to minimise lapses and to ensure better execution of works.

14. *Rural Water-supply.*—With a view to provide facilities for drinking water in every village in the State a comprehensive programme has been sanctioned and Government have promised a special grant of 1 lakh of rupees per annum for three years commencing from 1914-15 for this purpose. An additional grant of half a lakh of rupees has also been made available from the Village Improvement grant and the District Boards have been requested to contribute a similar amount. All these contributions together with the grants, if any, from the villagers concerned have been constituted into a separate fund under the control of the Deputy Comissioners known as the Drinking Water Wells Fund. Well works are ordinarily sanctioned only if the villagers concerned contribute one-half of the cost in the shape of labour or money; but the Deputy Commissioners have been allowed to waive the contribution in specially hard cases. As this scheme was sanctioned rather late in the year and the necessary preliminary arrangement took time, the progress was not appreciable and only Rs. 8,126 were spent during the year. It is hoped that better progress will be shown in the current year.

15. *Vital Statistics.*—The number of births and deaths registered during the year was 98,522, and 82,308 against 99,768 and 90,866, respectively, in the previous year. Cholera and small-pox were less prevalent than in the previous year. There was marked decrease in the mortality registered in the Tumkur and Chitaldrug Districts.

16. *Medical Relief.*—The District Funds contributed towards the maintenance of the Maternity Hospitals at Mysore and Kolar Gold Fields, 117 Local Fund Dispensaries, 32 Ayurvedic and Unani Dispensaries and the employment of 100 midwives during the year. The Female Dispensary at Champion Reefs was closed on the 7th October 1914 on the opening of the New Maternity Hospital but it was re-opened on the 4th March 1915, on the Sanitary Board agreeing to meet the charges thereof. New Local Fund Dispensaries were established at Bidare in the Kadur District and Hirimbadakatte in the Shimoga District. A Vaidyasala was newly established at Hosakere in the Gubbi Taluk. The Local Fund Dispensary at Chelur and the Vaidyasalas at Auguinbi and Rayalpad were transferred to Ratnapalya, Chinikatte and Manchaneelkote respectively. The Redfern Memorial Hospital at Hassan continued to receive a grant of Rs. 200 a year from the Hassan District Funds

17. *Vaccination.*—There was a general decrease in the number of vaccinations performed in all the districts, except Mysore and the Kolar Gold Fields. Belated supply of vaccine lymph in February and March 1915, the absence of vaccinators on leave in the Tumkur District, the failure to fill up vacancies in the Hassan District till very late in the year and the difficulty felt by the temporary vaccinators in gaining the confidence of the villagers in the Bangalore District are some of the reasons adduced for the decrease in the number of vaccinations performed Government are not satisfied that these explanations are satisfactory The Sanitary Commissioner's attention is invited to the inadequate work of the Vaccination staff and he is requested to issue definite instructions to ensure improvement.

18. *Conservancy and Sanitation.*—A sum of Rs. 1,11,557 was spent under this head of which Rs. 97,635 were on establishments, Rs. 947 were spent on sanitation during jatras and Rs. 6,890 on the prevention of epidemics. Seventy-four Sanitary and Assistant Sanitary Inspectors were employed for the supervision of sanitation in rural parts and separate places were set apart for storing manure in 537 villages. In 40 villages, besides the Unions, separate establishments were maintained at a cost of Rs. 2,794 to clean the streets. The Village Improvement Committees and Malnad Improvement Committees have been doing a good deal of work in improving the sanitary condition of the villages by way of clearance of lantana, etc., within their spheres of activity. To facilitate the operations of the Malnad Improvement Committees, the Village Sanitation Rules have been ordered to be introduced into all the villages coming within their operation, irrespective of the number of houses therein, and to safeguard the health of populous towns and important railway stations; a similar relaxation of rules was permitted in the cases of villages in close proximity to such towns and stations. (*Vide* G. O. Nos. 4091-6—Med. 24-13-134, dated 20th November 1914 and 3828-37—Ml. 394-13-2, dated 12th November 1914.)

19. *Prosecutions under Sanitation Laws.*—On the Kolar Gold Fields, 78 persons were convicted for breach of sanitary rules, while in the rural parts under the control of the District Boards out of 616 persons prosecuted for the breach of rules under the Village Sanitation Regulation, 340 were convicted and fines amounting to Rs. 547 recovered and credited to the District Funds. The number of applications for licenses to build houses which were pending at the end of the year was very heavy in the Taluks of Kolar, Dodballapur, Sidlaghatta, Mulbagal, Arkalgud and Arsikere. Prompt action should be taken to dispose of these cases.

20. *Accommodation for Travellers.*—One hundred and thirty-six 3rd class travellers bungalows and 235 musafirkhanas and other buildings were maintained at a cost Rs. 26,534 from the District Funds during the year. At Kondaji in the Hassan District, a rest house was constructed by Mr. Appannaiengar at a cost of Rs. 2,000 and placed at the disposal of the District Board for the use of the travelling public. The travellers bungalow at Muthodi was retransferred to the charge of the Forest Department and the musafirkhana at Lakkavalli was placed at the disposal of the Malnad Improvement Committee for locating a dispensary. The building known as the Revenue Lodge at Marikanve was converted into a musafirkhana and handed over to the Chitaldrug District Board for maintenance. In connection with the improvement of hill stations in the State, the Mysore District

Board agreed to contribute to Government a moiety of the cost of construction of a musafirkhana on the Chamundi Hills.

21. *Cattle Shows and Exhibitions.*—In addition to the usual cattle shows held at the several places under the auspices of the District Boards, five new shows organised purely by private enterprise were held at the marginally noted places. At Hoskoppa in the Kadur District a non-official member organised an exhibition of Malnad products and at Bowringpet an Industrial and Agricultural Exhibition was held in connection with the show above referred to.

1. Bowringpet.
2. Chickarsinakere (Malvalli Taluk).
3. Kotebetta (Nagamangala Taluk).
4. Bhimanahalli (Heggaddevankote Taluk).
5. Karighatta (Seringapatam Taluk).

22. *Tolls.*—The toll-gate at Siddapur on the Somwarpet-Konanur road was abolished from 1st July 1914 and new toll-gates were established on the Hangal-Rayadurga road and the Bababudan Hill road. The total number of local fund toll-gates at the end of the year was 22 and the revenue therefrom was Rs. 45,553 or 5 per cent of the total receipts of the District Boards under revenue heads excluding extraordinary items.

23. *Cattle Pounds.*—From the statistics furnished, it is seen that in the case of 486 out of 971, *i.e.*, one-half the number of pounds, the income from fines was less than Rs. 20 for the entire year and that in 31 pounds no animals were impounded during the year. The highest income from fines is reported from the pound at Basapur, Bangalore Taluk (Rs. 658) and the next from the one at Robertsonpet (Rs. 536). In the four marginally noted cattle pounds, an income of only four annas is reported.

Motaganahalli, Magadi Taluk.
Nayanahalli, Chikballapur. Taluk.
Issur, Shikarpur Taluk.
Tatur, Sorab Taluk.

The number of cattle pounds in each district also varies largely, ranging from 70 in the Bangalore District to 247 in the Kolar District. One hundred and seventy-two of the pounds in the last named district had an income less than Rs. 20, and ten did not work.

There is thus considerable reason to believe that pounds have in the past, been opened without sufficient consideration as to their necessity.

From some instances recently brought to their notice, Government have reason to believe also that the low income of some pounds may be due to the absence of sufficient check over the staff in charge of the pounds. Government hope that this matter also will receive due consideration from the Local Boards and the Revenue Officers.

24. *Railways.*—During the year the Government undertook to become a joint and equal partner with the Kolar District Board in the Railway line from Bowringpet to Chikballapur. To meet the cost of the extension of the line from Kolar to Chikballapur the District Board were authorised to raise a further debenture loan of Rs. 4 lakhs. But the money market being unfavourable the Board succeeded in raising only a sum of Rs. 51,799, on account of this loan and they have found themselves unable to sell, at a reasonable rate of discount, the Government of India securities in which the original loan is invested. Government have in view of the necessity for the very early completion of this railway, agreed to make temporary advances and allow overdrawals for meeting the District Board share of the cost of constructing the line, the District Board being required to pay interest at 4 per cent on the temporary advances and on the minus balances outstanding in their accounts.

To open up the Malnad portion of the Shimoga District by the construction of a railway line, the Shimoga District Board undertook to raise a loan of Rs. 10 lakhs under the usual Government guarantee. Shares to the extent of Rs. 5,82,000 were subscribed for, and Rs. 2,36,423 actually collected before the end of the year.

25. *General.*—The thanks of Government are due to the several members of the local bodies who have co-operated in successfully administering the District
